REPORTING

GHA has developed computer programs specifically for the purpose of reporting minority worker ^{and contractor} participation on construction projects.

These reports are prepared monthly, showing total hours worked, by contractor and by trade; minority hours by contractor and by trade; and wages earned by minority workers; ^{and the level of MBE/WBE participation.}

A copy of a report from another project is enclosed as Exhibit IV. It illustrates the format of the reporting system.

- D. Develop standard operating procedures to be used in the bid process to assure appropriate minority opportunity.
- E. Provide information and technical assistance...where needed...to MBEs in areas of bid estimating, cost control analysis, financial projections, and other administrative and management skills as required.
- F. Identify non-contractor MBEs who provide construction-related services or products (security, trucking, banking, food services, etc.), and assure that they are provided the opportunity to compete for work related to the project.

MINORITY CRAFTSMEN PARTICIPATION

- A. Design and implement programs to assure that the requirement ~~that~~ *minority craftsmen* ~~32% of the man hours worked~~, by trade, will be successfully carried out, as required by affirmative action policies of the State of New Jersey.
- B. Assist the GC/Construction Manager and all subcontractors in achieving the *minority* ~~32%~~ *appropriate* craftsmen goals by meeting with all Business Agents of the Essex County Building Trades Council to encourage their cooperation in referring minority workers as required.
- C. To establish procedures to be followed by contractors, workers and the unions in the event the traditional referral sources are unable to provide sufficient minority personnel.
- D. To serve as an alternative referral source, if necessary, to all minority and non-minority contractors.
- E. Prepare all reports required regarding minority worker participation.
